CAREER OBJECTIVE

As a recent BCA graduate, I'm enthusiastic about applying my technical knowledge to solve real-world challenges in the IT industry. I'm eager to contribute my analytical and problem-solving skills while continually expanding my expertise in software development and data analysis. I'm seeking an entry-level role where I can learn and grow while making a valuable contribution to a forward-thinking team.

Internship

Volubilis LLP | 09/06/2023 - 13/09/2023

- Assess the user needs
- Write and test code, refining and rewriting it as necessary and communicate with any programmers involved in the project
- Research, design and write new software programs

My projects

- **Car Damage Detection System**

CDD is used to detect the damage on the car using ML/DL like CNN, Keras, Django,VGG16. IT is a Computer Vision Web app using HTML,CSS, JavaScript, Ajax.

- **Camera Calibration (Open CV)**

Camera Calibration is used to extract matrices from 2D Image's using Open CV with python or C++ **(Used: Python)**

Extracurricular Activities

- Football fanatic who finds joy in the beautiful game, where dedication and teamwork merge for success
- Dedicated bookworm, I find solace in the pages of books, unraveling stories, and embracing knowledge to nurture my passion for lifelong learning

I hereby declare that the above information is correct to the best of my knowledge & ability
